

Growing! This term we're looking at the way things grow.
Our books will look at how animals and plants change as they grow.

Six Little Chicks:

This story follows a mother hen as she tries to protect her chicks from being eaten by the big hairy fox! We'll have fun learning all about the life cycle of a chicken by watching the chicks hatch and grow!

The Very Hungry Caterpillar: This story explores the life cycle of a butterfly through a funny story about a greedy caterpillar. **This popular story is available at most libraries. Why not read along at home?**

Yucky Worms

In this book we learn about how amazing worms are, and how they help our plants to grow. Can you find any in your garden?

Words to use this term:

egg change grow
chick seed caterpillar
hatch safe healthy

Why not try to use some these words whilst playing and talking with your child. Could you talk about these things in your home language too?

We are having living eggs delivered to our nursery. The children will be able to watch the eggs wobble and crack. We can't wait for them to hatch!

Events

Monday 11th March
Science Week

Come and plant a seed
with your child

Friday 15th March
Red Nose Day

Wear your Sports Gear

Last day of term:
Friday 5th April

Look out for more news about our Easter activities!

Parents and carers please come along to **Stay and Play** with your child on **Tuesdays**.

From 8:45am to 9:45am (morning) and 12:30pm to 13:30pm (afternoon)

for as long as you wish between those times. *The children love to have you around. You can read with them, play a game, or just have a talk. We look forward to seeing you.*
