

Key maths skills for year 1

Counting forwards and backwards in 1s to/from 50
Count forward and backward in 10s to/from 100
Partition 2-digit numbers into the tens and ones (e.g. 54 is made from 50 and 4)
Given a number, identify 1 more or less
Use drawings (sticks for 10s, dots for ones) to represent numbers to support addition (eg $36 + 23$ can be drawn as 3 sticks and 6 dots + 2 sticks and 3 dots)
Explore fractions by sharing beans/pasta into equal groups (eg $\frac{1}{4}$ of 12 would be shown with 4 groups of 3 beans)
Practise and learn number bonds to 10 (eg $1+9=10$, $2+8=10$, $3+7=10$etc)
Explore units of measurement (m/cm, kg/g, l/ml when shopping, cooking etc)
) Encourage children to notice and read clocks, join in with money transactions, and identify 2D and 3D shape in their environment.

Here are some suggested online activities to support your children:
